

Duration 2 Days

TC1148

OVERVIEW

Program Management Essentials explores what is involved in achieving strategic goals through program management.

It defines the role and responsibility of the program manager and the responsibilities for inter-project coordination, management of **project benefits, stakeholder management** and **governance**.

This workshop is based on best practice of two globally recognized standards for Programme Management:

- Newly released **Standard for Program Management**, a PMI global Standard © 2006
- **Managing Successful Programmes (MSP)** – methodology developed and owned by the OGC (Office of Government Commerce, UK).

WORKSHOP OBJECTIVE

Our objective is to provide participants with a strong introduction to the necessary requirements for implementing or carrying out program management.

The workshop is aimed at a senior audience, provides facilitation of the above standards with guided discussion and discovery of practical examples.

TARGET AUDIENCE & PREREQUISITES

This workshop is designed for participants that:

- work in a senior project environment
- are involved a range of projects at the program manager level
- have a very good understanding of project management
- have a minimum of five years work experience in a project management environment and two years in a senior project/program management role running large or complex projects or programs

DELIVERY

All workshops may be conducted onsite or at our premises, with experienced facilitators providing group and/or individual instruction. Training is provided through hands-on learning, relevant exercises and the provision of a participant handbook. Our participants are also entitled to complementary telephone consultation/advice within 60 days of workshop completion.

All workshops can be customised to suit your requirements, using a project scenario from your workplace as a case study.
