

Duration 5 Days

OVERVIEW

Project management is experiencing unprecedented growth and recognition as a profession. A consequence of this growth is increased reliance upon project management and the need to professionally recognise project management ability. As companies increasingly adopt project management into their businesses, the demand for knowledgeable practitioners increases globally.

The Project Management Institute (PMI®) sponsors a project management certification program. The purpose and goal of this certification program is the development, maintenance, evaluation, promotion and administration of a rigorous, examination-based, professional certification credential of the highest calibre – the Project Management Professional (PMP®) credential.

Our PMP® Preparation Workshop provides the necessary exam and certification preparation required in order to obtain the globally recognised PMP® (Project Management Professional) Certification from the PMI® (Project Management Institute).

Our intention is not to teach participants how to manage projects, but to guide you through the process and study required in order to obtain certification.

WORKSHOP OBJECTIVE

To prepare experienced project managers for the task of passing the PMP® Certification Exam with a minimum of disruption to current work duties.

TARGET AUDIENCE

This workshop is designed for:

- Experienced project managers wishing to obtain the PMP® Certification.

LEARNING OUTCOMES & FACILITATION

Successful completion of this workshop will provide participants with an understanding of:

- The application process – with new eligibility criteria
- The requirements of Certification
- The study requirements including resources
- Current levels of knowledge
- The fundamentals of the Project Management Body Of Knowledge (using the newly released 4th edition PMBOK® Guide)

Facilitators of this workshop are highly qualified and experienced within the area of project management, methodology development & implementation, and hold all relevant certifications with leading bodies.

Duration 5 Days

PREREQUISITES

Participants should:

- Be practicing project managers
- Ideally have completed a project management fundamentals course
- Have at least 3 years project management experience
- Satisfy the PMP® certification eligibility criteria or plan to in the near future

PRE-COURSE WORK

There is currently no pre-course work for this programme

CERTIFICATION & EXAMINATION

Candidates will, at the conclusion of this programme, register to undertake the examination which is a 4 hour computer-based 200 question multiple-choice exam.

PMPartners is a Global PMI (Project Management Institute) Registered Education Provider.

DELIVERY

All workshops may be conducted onsite or at our premises, with experienced facilitators providing group and/or individual instruction. Training is provided through hands-on learning, relevant exercises and the provision of a participant handbook. Our participants receive email support throughout the study process and are also entitled to complementary telephone consultation/advice within 60 days of workshop completion.

EXAM PREPARATION (USING OVER 450 SAMPLE EXAM QUESTIONS)

During the programme, participants will be able to assess their ability to successfully pass the exam, by completing over 450 practice exam questions.

Ultimately, attainment of certification provides conclusive assessment.
